Roquefort Therapeutics plc
("Roquefort Therapeutics" or the "Company")

Response to Share Price Movement

Roquefort Therapeutics (LSE:ROQ, OTCQB:ROQAF), the Main Market listed biotech company focused on developing first in class medicines in the high value and high growth oncology market, notes recent bulletin board speculation about a placing that the Company may be undertaking.

The Company recently engaged its advisers to commence a process of market soundings in relation to a potential fundraise. However, in response to incorrect bulletin board comments regarding a speculative placing price and resulting unusual share price movements, the Board has decided to not proceed with any potential placing at this time.

As previously announced, Roquefort Therapeutics remains focused on completing an out-licensing agreement during the course of 2024 with potential Big Pharma partners and will update the market when a binding agreement is entered into.

About Roquefort Therapeutics

Roquefort Therapeutics (LSE:ROQ, OTCQB:ROQAF) is a Main Market listed biotech company developing first in class drugs in the high value and high growth oncology segment prior to partnering or selling to big pharma.

Roquefort Therapeutics' portfolio consists of five novel patent-protected pre-clinical anti-cancer medicines. The highly complementary profile of five best-in-class medicines consists of:

- Midkine antibodies with significant *in vivo* efficacy and toxicology studies;
- Midkine RNA therapeutics with novel anti-cancer gene editing action;
- Midkine mRNA therapeutics with novel anti-cancer approach;
- STAT-6 siRNA therapeutics targeting solid tumours with significant *in vivo* efficacy; and
- MK cell therapy with direct and NK cell-mediated anti-cancer action
